

**SUMMARY PROSPECTUS**  
**MARCH 22, 2021, AS AMENDED AUGUST 23, 2021**

**EASTERLY GLOBAL REAL ESTATE FUND**  
**Class A (JAREX) | Class C (JACRX) | Class I (JARIX) | Class R6 (JARSX)**

*Before you invest, you may want to review the Fund’s Prospectus, which contains more information about the Fund and its risks. The Fund’s Prospectus and Statement of Additional Information, both dated March 22, 2021, as amended August 23, 2021, are incorporated by reference into this Summary Prospectus. You can obtain these documents and other information about the Fund online at <https://www.EasterlyFunds.com/funds/>. You can also obtain these documents at no cost by calling (toll free) (833) 999-2636, emailing [info@EasterlyFunds.com](mailto:info@EasterlyFunds.com) or by asking any financial advisor, bank or broker-dealer that offers shares of the Fund.*

**Investment Objective:** The Fund seeks total return through a combination of current income and capital appreciation.

**Fees and Expenses of the Fund:** This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, for transactions in Class I and Class R6, which are not reflected in the tables and examples below. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in the Easterly Funds. More information about these and other discounts is available from your financial professional and in the Choosing a Share Class section on page 74 of the Fund’s prospectus. In addition, Appendix A attached to the Fund’s prospectus contains information regarding financial intermediary-specific sales charge waivers and discounts.

<b>SHAREHOLDER FEES</b>	<b>Class A</b>	<b>Class C</b>	<b>Class I</b>	<b>Class R6</b>
Maximum Sales Charge (Load) Imposed on Purchases as a % of offering price	5.75%	NONE	NONE	NONE
Maximum Sales Charge (Load) Imposed on Reinvested Dividends as a % of offering price	NONE	NONE	NONE	NONE
Maximum Contingent Deferred Sales Charge (Load) as a % of offering price	NONE	1.00%	NONE	NONE
Redemption Fee	NONE	NONE	NONE	NONE
<b>ANNUAL FUND OPERATING EXPENSES</b> (expenses that you pay each year as a percentage of the value of your investment)				
	<b>Class A</b>	<b>Class C</b>	<b>Class I</b>	<b>Class R6</b>
Management Fees	0.90%	0.90%	0.90%	0.90%
Distribution and/or Service Rule 12b-1 Fees	0.25%	1.00%	NONE	NONE
Other Expenses <sup>1</sup>	0.28%	0.28%	0.28%	0.30%
Acquired Fund Fees and Expenses <sup>1, 2</sup>	0.01%	0.01%	0.01%	0.01%
Total Annual Fund Operating Expenses before Fee Waiver and/or Expense Reduction/Reimbursement	1.44%	2.19%	1.19%	1.21%
Fee Waiver and/or Expense Reduction/ Reimbursement	—	—	(0.14)%	(0.26)%
Total Annual Fund Operating Expenses after Fee Waiver and/or Expense Reduction/Reimbursement <sup>3</sup>	1.44%	2.19%	1.05%	0.95%

- Other Expenses and Acquired Fund Fees and Expenses are based on estimated amounts for the current fiscal year.
- Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. These Acquired Fund Fees and Expenses are not considered in the calculation of the expense cap. The Total Annual Fund Operating Expenses in the above fee table will not correlate to the expense ratio in the Fund’s financial statements (or the financial highlights in this Prospectus) because the financial statements will include only the direct operating expenses incurred by the Fund, not the indirect costs of investing in Acquired Funds.
- Pursuant to an operating expense limitation agreement between Easterly Funds LLC, the Fund’s investment manager (“Easterly” or the “Adviser”), and the Fund, Easterly has contractually agreed to waive all or a portion of its advisory fee and/or pay expenses of the Fund so that total annual Fund operating expenses (excluding front-end and contingent deferred sales loads, leverage, interest and tax expenses, dividends and interest on short positions, brokerage commissions, expenses incurred in connection with any merger, reorganization or liquidation, extraordinary or non-routine expenses and Acquired Fund Fees and Expenses) for Class A, Class C, Class I, and Class R6 do not exceed 1.69%, 2.37%, 1.04%, and 0.94%, respectively. The expense limitation agreement for Class A, Class C, Class I, and Class R6 shares will be in effect through March 19, 2023. This operating expense limitation agreement cannot be terminated during its term. Easterly is permitted to seek reimbursement from the Fund, subject to limitations, for management fees waived and Fund expenses it paid within three (3) years of the end of the fiscal year in which such management fees were waived or expenses paid, as long as the reimbursement does not cause the Fund’s operating expenses to exceed (i) the expense cap in place at the time the fees were waived or the expenses were incurred; or (ii) the current expense cap, whichever is less.

**Expense Example:** This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated. It also shows costs if you sold your shares at the end of the period or continued to hold them. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The Example reflects the contractual fee waiver/expense reimbursement arrangement for the duration of the arrangement only. Although your actual costs may be higher or lower, based on these assumptions, your costs, would be:

**If the shares are redeemed at the end of each period:**

	<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
<b>Class A</b>	\$713	\$1,004	\$1,317	\$2,200
<b>Class C</b>	\$322	\$685	\$1,175	\$2,524
<b>Class I</b>	\$107	\$349	\$626	\$1,416
<b>Class R6</b>	\$97	\$331	\$612	\$1,415

**If the shares are not redeemed:**

	<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
<b>Class A</b>	\$713	\$1,004	\$1,317	\$2,200
<b>Class C</b>	\$222	\$685	\$1,175	\$2,524
<b>Class I</b>	\$107	\$349	\$626	\$1,416
<b>Class R6</b>	\$97	\$331	\$612	\$1,415

**Portfolio Turnover:** The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the portfolio turnover rate of the James Alpha Global Real Estate Investments Portfolio, a series of The Saratoga Advantage Trust (the “Predecessor Portfolio”), was 187% of the average value of its portfolio.

**Principal Investment Strategies:** Under normal circumstances, the Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in real estate and real estate-related issuers or investments that provide exposure to real estate and real estate-related issuers, and in derivatives and other instruments that have economic characteristics similar to such securities. The Fund may invest 100% of its net assets (other than cash and cash equivalents) in real estate investment trusts (“REITs”) and may also invest in other publicly traded real estate securities that are included in the FTSE EPRA Nareit Developed Real Estate Index (the “Index”). The Index may include securities of any issuer that derived in the previous full fiscal year at least 75% of its total earnings before interest, depreciation and amortization (“EBIDA”) from the ownership, trading and development of income-producing real estate. REITs are typically small, medium or large capitalization stocks which fall within the range of \$500 million to \$50 billion in equity market capitalization. Under normal circumstances, the Fund invests at least 40% of its net assets in the securities of issuers located in at least three foreign countries. The Fund will limit its investments in issuers located in any single foreign country to no more than 25% of its net assets. The Fund also seeks to enhance current income by writing (selling) covered call options with a notional value of up to 30% of the Fund’s net assets. “Notional value” is the value of an option contract’s underlying shares at the current market price. The Fund’s sub-adviser uses both a quantitative screening process and a qualitative stock selection process when selecting securities for investment by the Fund in connection with its strategy.

*Quantitative Screening Process* - Ranger Global Real Estate Advisors, LLC (“Ranger”), sub-adviser to the Fund, and Green Street Advisors of Newport Beach, California, an independent research and consulting firm concentrating on publicly-traded real estate securities, have designed a proprietary quantitative screening model, the Global Real Estate Investment Model (the “Model”), which the Fund’s sub-adviser uses to identify the securities in which the Fund may invest. The Model identifies approximately 100 qualifying securities for evaluation by the Fund’s sub-adviser (“Qualifying Securities”). Qualifying Securities may include those issued by companies in a variety of sectors within the real estate industry, including, among others, the retail, office, industrial, hotel, healthcare multi-family and self-storage sectors.

*Qualitative Stock Selection Process* - All Qualifying Securities are evaluated by the Fund’s sub-adviser in determining appropriate investments for the Fund. The Fund’s sub-adviser selects the top 40 to 50 securities from among the approximately 100 Qualifying Securities based on its assessment of certain factors including, but not limited to, management quality, external growth potential, corporate governance, quality and location of assets, lease terms, tenant credit quality, debt structure and financial flexibility. The Fund’s sub-adviser may sell a security held in the portfolio when it no longer qualifies under the parameters established by the Fund’s sub-adviser.

**Principal Risks:** There is no assurance that the Fund will achieve its investment objective. The Fund share price will fluctuate with changes in the market value of its portfolio investments. When you sell your Fund shares, they may be worth less than what you paid for them and, accordingly, you can lose money investing in this Fund.

*Investment and Market Risk* - An investment in the Fund's common shares is subject to investment risk, including the possible loss of the entire principal amount invested. An investment in the Fund's common shares represents an indirect investment in the securities owned by the Fund, which are generally traded on a securities exchange or in the over-the-counter ("OTC") markets. The value of these securities, like other market investments, may move up or down, sometimes rapidly and unpredictably due to changes in general market conditions, economic trends or events that are not specifically related to the issuer of the security or other asset, or factors that affect a particular issuer or issuers, exchange, country, group of countries, region, market, industry, group of industries, sector or asset class. Social, political, economic and other conditions and events (such as war, natural disasters, epidemics and pandemics, terrorism, conflicts and social unrest) will occur that have significant impacts on issuers, industries, governments and other systems, including the financial markets. As global systems, economies and financial markets are increasingly interconnected, events that once had only local impact are now more likely to have regional or even global effects. Events that occur in one country, region or financial market will, more frequently, adversely impact issuers in other countries, regions or markets. These impacts can be exacerbated by failures of governments and societies to adequately respond to an emerging event or threat. Investors will be negatively impacted if the value of their portfolio holdings decreases as a result of such events, if these events adversely impact the operations and effectiveness of the Adviser or key service providers or if these events disrupt systems and processes necessary or beneficial to the management of accounts. These events may negatively impact broad segments of businesses and populations and have a significant and rapid negative impact on the performance of the Fund's investments, increase the Fund's volatility and exacerbate pre-existing risks to the Fund. The Fund's common shares at any point in time may be worth less than the original investment, even after taking into account any reinvestment of dividends and distributions.

*Common Stock Risk* - In general, stock values fluctuate in response to activities specific to the company as well as general market, economic and political conditions. Stock prices can fluctuate widely in response to these factors. Common stockholders are subordinate to debt or preferred stockholders in a company's capital structure in terms of priority to corporate income and liquidation payments and, therefore, will be subject to greater credit risk than preferred stock or debt instruments.

*Real Estate Securities Risks* - The Fund does not invest in real estate directly, but because the Fund concentrates its investments in REITs and publicly traded real estate securities, its portfolio will be significantly impacted by the performance of the real estate market and may experience more volatility and be exposed to greater risk than a more diversified portfolio that does not make such investments. The value of the Fund's common shares will be affected by factors affecting the value of real estate and the earnings of companies engaged in the real estate industry, including: (i) changes in general economic and market conditions; (ii) changes in the value of real estate properties; (iii) risks related to local economic conditions, overbuilding and increased competition; (iv) increases in property taxes and operating expenses; (v) changes in zoning laws; (vi) casualty and condemnation losses; (vii) variations in rental income, neighborhood values or the appeal of property to tenants; (viii) the availability of financing; (ix) changes in interest rates and quality of credit extended; (x) fluctuations in rent schedules and operating expenses; (xi) adverse changes in local, regional or general economic conditions; (xii) deterioration of the real estate market and the financial circumstances of tenants and sellers and (xiii) environmental factors. REITs and foreign real estate companies require specialized management and pay management expenses; may have less trading volume; may be subject to more abrupt or erratic price movements than the overall securities markets; may not qualify for preferential tax treatments or exemptions; and may invest in a limited number of properties, in a narrow geographic area, or in a single property type, which increases the risk that the Fund could be unfavorably affected by the poor performance of a single investment or investment type. Furthermore, investments in REITs and foreign real estate companies may involve duplication of management fees and certain other expenses, as the Fund indirectly bears its proportionate share of any expenses paid by REITs and foreign real estate companies in which it invests. Such expenses are not reflected in Acquired Fund Fees and Expenses under the Annual Fund Operating Expenses section of the above fee table.

There are special risks associated with investing in REIT preferred stock. Preferred stock may include provisions that permit the issuer, in its discretion, to defer or omit distributions for a certain period of time. If the Fund owns a security that is deferring or omitting its distributions, the Fund may be required to report the distribution on its tax returns, even though it may not have received this income. Further, preferred stock may lose substantial value due to the omission or deferral of dividend payments. Preferred stock may be less liquid than many other securities, such as common stocks, and generally offer no voting rights with respect to the issuer. Preferred stock may also be subordinated to other securities in an issuer's capital structure, subjecting them to a greater risk of non-payment than more senior securities. In addition, in certain circumstances, an issuer of preferred stock may redeem the stock prior to a specified date, and this may negatively impact the return of the security.

Certain sectors of the real estate industry, such as the retail, office, industrial, hotel, healthcare multi-family and self-storage, carry special risks. These sectors may be affected by adverse economic and regulatory events or increased competition to a greater degree than other sectors of the real estate industry.

*Medium and Small Capitalization Company Risk* - Many of the real estate securities in which the Fund invests are medium and small capitalization companies. Investing in medium and small capitalization companies may involve more risk than is usually associated with investing in larger, more established companies. There is typically less publicly available information concerning small and medium capitalization companies than for larger, more established companies. Some small and medium capitalization companies have limited product lines, distribution channels and financial and managerial resources and tend to concentrate on fewer geographical markets than do larger companies. Also, because small and medium capitalization companies normally have fewer shares outstanding than larger companies and trade less frequently, it may be more difficult for the Fund to buy and sell significant amounts of shares without an unfavorable impact on prevailing market prices.

*Foreign Securities Risk* - The Fund's foreign investments will be affected by changes in the foreign country's exchange rates; political and social instability; changes in economic or taxation policies; difficulties when enforcing obligations; decreased liquidity; less stringent investor protections and disclosure standards; and increased volatility. Foreign companies may be subject to less regulation resulting in less publicly available information about the companies.

*Issuer-Specific Risk* - The price of an individual security or particular type of security can be more volatile than the market as a whole and can fluctuate differently than the market as a whole. An individual issuer's securities can rise or fall dramatically with little or no warning based upon such things as a better (or worse) than expected earnings report, news about the development of a promising product, or the loss of key management personnel. There is also a risk that the price of a security may never reach the level that the Fund's sub-adviser believes is representative of its full value or that it may even go down in price.

*Management Risk* - The Fund's sub-adviser's securities selections and other investment decisions might produce losses or cause the Fund to underperform when compared to other funds with similar investment goals. The Fund's successful pursuit of its investment objective depends upon the Model and the Fund's sub-adviser's ability to manage the Fund in accordance with the Model. The Model's parameters and weightings might produce losses or cause the Fund to underperform when compared to other funds with similar investment goals. If one or more key individuals leave the employ of the Fund's sub-adviser, the Fund's sub-adviser may not be able to hire qualified replacements, or may require an extended time to do so. This could prevent the Fund from achieving its investment objective.

*Options Related Risk* - There are numerous risks associated with transactions in options on securities. A decision as to whether, when and how to use covered call options involves the exercise of skill and judgment, and even a well-conceived transaction may be unsuccessful to some degree because of market behavior or unexpected events. As the writer of a covered call option, the Fund forgoes, during the life of the covered call option, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the option premium received and the exercise price of the covered call option, but has retained the risk of loss, minus the option premium received, should the price of the underlying security decline. The use of options may require the Fund to sell portfolio securities at inopportune times or for prices other than current market values, will limit the amount of appreciation the Fund can realize above the exercise price of an option, or may cause the Fund to hold a security that it might otherwise sell. Certain options may be traded in the "over-the-counter" market, which are options negotiated with dealers; there is no secondary market for OTC options.

*Portfolio Turnover Risk* - The frequency of the Fund's transactions will vary from year to year. Increased portfolio turnover may result in higher brokerage commissions, dealer mark-ups and other transaction costs and may result in taxable capital gains. Higher costs associated with increased portfolio turnover may offset gains in the Fund's performance.

Shares of the Fund are not bank deposits and are not guaranteed or insured by the Federal Deposit Insurance Corporation or any other government agency.

**Performance:** The Fund has adopted the performance of the Predecessor Portfolio as the result of a reorganization of the Predecessor Portfolio into the Fund, which was consummated after the close of business on March 19, 2021 (the “Reorganization”). Prior to the Reorganization, the Fund had not yet commenced operations. For the periods prior to August 1, 2011, the Predecessor Portfolio operated as a separate fund called the Global Real Estate Investments Fund (the “Predecessor Fund”), which was advised by Ascent Investment Advisors, LLC.

The bar chart and table that follow provide some indication of the risks of investing in the Fund by showing changes in the performance of the Class A shares from year-to-year and by showing how the average annual returns for 1 year, 5 years and since inception of the Predecessor Portfolio and Predecessor Fund, as applicable, compare with those of the FTSE EPRA Nareit Developed Real Estate Index. The returns in the bar chart do not reflect the deduction of sales charges. If these amounts were reflected, returns would be less than shown. The past performance of the Fund, Predecessor Portfolio, and Predecessor Fund (before and after taxes) is not necessarily an indication of how the Fund will perform in the future.

The returns shown for the periods ending on or prior to August 1, 2011 are those of the Class A Shares of the Predecessor Fund. The returns shown for periods from August 1, 2011 and ending on or prior to March 19, 2021 are those of the Class A, Class C, Class I, and Class S shares of the Predecessor Portfolio. Class A, Class C, Class I, and Class S shares of the Predecessor Portfolio were reorganized into Class A, Class C, Class I, and Class R6 shares of the Fund, respectively, after the close of business on March 19, 2021. Class A, Class C, Class I, and Class R6 shares’ returns of the Fund will be different from the returns of the Predecessor Portfolio as they have different expenses.

The returns in the table assume you sold your shares at the end of each period and include the effect of Class A shares maximum applicable front-end sales charge. Of course, if you did not sell your shares at the end of the period, your return would be higher. You may obtain the Fund’s updated performance information by calling toll free (833) 999-2636 or by visiting [www.EasterlyFunds.com/funds/](http://www.EasterlyFunds.com/funds/).

**CLASS A ANNUAL TOTAL RETURNS – CALENDAR YEARS**

Best Quarter:	Q1 2019	17.09%
Worst Quarter:	Q1 2020	-26.83%

**AVERAGE ANNUAL TOTAL RETURNS**  
**(for the periods ended December 31, 2020)**

	<b>1 Year</b>	<b>5 Year</b>	<b>10 Year</b>	<b>Life of Class</b>
<b>Class A Shares<sup>1</sup></b>				
Return Before Taxes	-5.19%	7.22%	7.29%	N/A
Return After Taxes on Distributions	-8.94%	3.14%	3.29%	N/A
Return After Taxes on Distributions and Sale of Fund Shares	-3.36%	3.79%	3.84%	N/A
<b>Class C Shares</b>				
Return Before Taxes	-1.13%	7.69%	N/A	8.89% <sup>2</sup>
<b>Class I Shares</b>				
Return Before Taxes	0.98%	8.98%	N/A	8.49% <sup>3</sup>
<b>Class R6 Shares</b>				
Return Before Taxes	0.40%	N/A	N/A	4.27% <sup>4</sup>
<b>FTSE EPRA Nareit Developed Real Estate Index</b> (reflects no deduction for fees, expenses or taxes)	-8.18%	4.71%	6.31%	*

\* FTSE EPRA Nareit Developed Real Estate Index performance for life of Class C shares is 7.71%; for life of Class I shares is 5.97%; and for life of Class R6 shares is 3.46%.

- (1) The performance figures shown above reflect the performance of Class A shares of the Predecessor Fund (for the periods prior to August 1, 2011) and of the Predecessor Portfolio (for the periods beginning August 1, 2011). The returns shown for periods prior to August 1, 2011 reflect the deduction of the maximum sales charge of the Predecessor Fund of 7.25%.
- (2) The Predecessor Portfolio's Class C shares commenced operations on January 5, 2012.
- (3) The Predecessor Portfolio's Class I shares commenced operations on August 1, 2011.
- (4) The performance figures for Class R6 reflect the performance of the Predecessor Portfolio's Class S shares. The Predecessor Portfolio's Class S shares commenced operations on August 17, 2017.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates during the period shown and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's tax situation and may differ from those shown, and the after-tax returns are not relevant to investors who hold their Fund shares through tax deferred arrangements such as 401(k) plans or individual retirement accounts. After-tax returns may be higher than before-tax returns due to an assumed benefit from capital losses that would have been realized had Fund shares been sold at the end of the relevant periods. After-tax returns are shown for Class A shares only and after-tax returns for other classes will vary.

## Management

*Investment Adviser:* Easterly Funds LLC

*Sub-Adviser:* Ranger Global Real Estate Advisors, LLC

*Portfolio Manager:*

<b>Andrew J. Duffy, CFA</b>	President and Chief Investment Officer of Ranger since June 2016; President of Ascent Investment Advisors, LLC (“Ascent”) from February 2009 to May 2016 and Portfolio Manager of Ascent from February 2009 to November 2016; Portfolio Manager since inception of the Fund in 2021 (and of the Predecessor Portfolio since its inception in 2011 and of the Predecessor Fund since its inception in 2009).
-----------------------------	---

**Purchase and Sale of Fund Shares:** In general, you may purchase, exchange, or redeem shares of the Fund on any day the New York Stock Exchange is open for business. Redemption requests may be made in writing, by telephone, or through a financial intermediary and will be paid by check or wire transfer.

Generally, the minimum initial purchase for Class A and Class C shares is \$2,500 and the minimum initial purchase for Class I shares is \$1 million. Class R6 shares are only available to certain qualified investors and the minimum initial investment will vary depending on the type of qualified investor, as described under Choosing a Share Class in the Fund’s prospectus. The minimum subsequent investment in the Trust is \$100, except for employee benefit plans, mutual fund platform programs, supermarket programs, associations and individual retirement accounts, which have no minimum subsequent investment requirements. There is no minimum subsequent investment for the Fund.

**Tax Information:** Distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you as ordinary income, capital gains, or some combination of both, unless you are investing through a tax-free plan, in which case your distributions generally will be taxed when withdrawn from the tax deferred account. The Fund’s investment techniques may cause more of the Fund’s income dividends and capital gains distributions to be taxable at ordinary income tax rates than it would if it did not engage in such techniques.

**Financial Intermediary Compensation:** If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and/or its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
